PETITION

We the undersigned, concerned citizens of the Republic of South Africa hereby condemn prostitution as being irreligious, immoral, exploitative and most importantly contrary to the tenets of the lifestyle expected of us by the lord of the Universe. We detest even the idea that prostitution should be legalized and we will resist the decriminalising/legalising of prostitution . Should the Government legalise prostitution it will surely lose our support and vote.

We are now and will always be intolerant of prostitution.The decriminalising/legalising or even tolerance of prostitution will infringe our constitutional Rights, which we will do everything in our power to preserve.
